INTERNATIONAL PRESENCE

ORGANIZATIONAL STRUCTURE

- GM: 1
- Operations manager: 1
- Sales Department: 14
- Product Manager: 5
- Services team: 10
- Account Manager:2
- Technicians: 13
- Team Leader:1
- Accounting: 7
- Senior logistics agent :1
- Delivery team :4

STRENGTHS

- **Market leader** in the UPS sector (MPS SAL has been in the market since 1980)
- **> 30 years** of experience in power & cooling
- **> 2,500 clients**
- **Solid reputation** locally and regionally, in the area of support & services (Presence/clients in several countries: Egypt, Iraq, Jordan, Uganda, Cameroon, Nigeria, Ghana, etc.)
- **Team professionalism & expertise** (**65 employees** , 24 among them are in the technical team)
- **Clients loyalty**
- **Covering all business sectors** : (>5,000 UPS)
 - ❑ Public, Banking, Telco, Hospitality, Education, Construction, Wholesale & Retail, Manufacturing, etc...
 - ❑ **Strong financial structure**
(with the support of ITG mother holding)

MISSION

- To be the **prime partner** for organizations, looking for quality power & cooling solutions.
- Our aim is to ensure for our clients, the critical **power continuity** and the required **environmental control infrastructure** along with **higher efficiency in power saving** for their sensitive and mission critical equipment, applications and information technology.

OUR SPECIALIZATION

Provision of **critical power, UPS systems, EMS, power distribution, structured cabling and data center solutions**, from renowned leaders.

EATON
Powering Business Worldwide

LEVITON®

NTI® NETWORK
TECHNOLOGIES
INCORPORATED

Schneider
Electric

We also design and implement **full turnkey data centers** including **disaster recovery sites** and **business continuity facilities**.

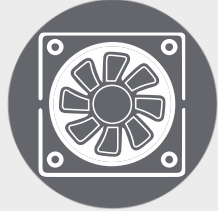

WHAT WE SUPPORT

Critical power solutions, ranging from one system to complex multiple connected systems, with different environmental requirements.

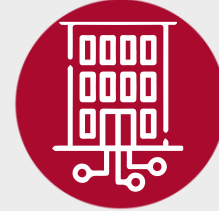

SOLUTIONS

Uninterruptible Power Supplies
solutions for business-critical continuity.

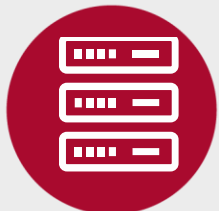

Precision Air Conditioning for critical environments.

Access Flooring Systems for computer data, power, voice & under-floor air distribution.

Electrical Distribution & Control to control and protect your equipment and electrical installations

Data Center
solutions for the continuity of daily operations.

Structure Cabling end to end solutions for copper & fiber network cabling

Environmental Monitoring System
to prevent hardware damage

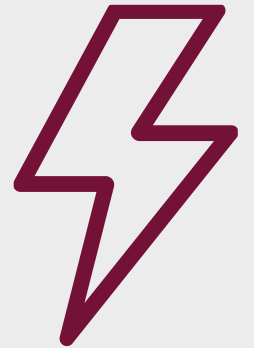

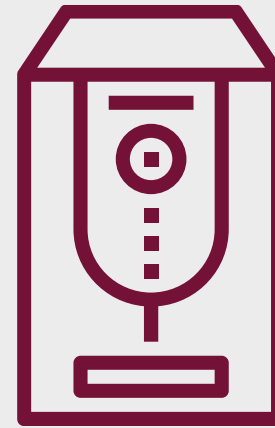

Batteries for industrial & Residential usage
AGM, Deep cycle and Lithium

WE ACCESS YOUR NEED & PROPOSE THE BEST UPS SOLUTION

From **small to heavy duty UPSs**, we deliver high quality **backup power** and **protection** for all your equipment and facilities.

UPS Systems provide **advanced features** that ensure **excellent power condition**, **low audio distortion**, and **high efficiency levels** in terms of saving power consumption that protects the environment.

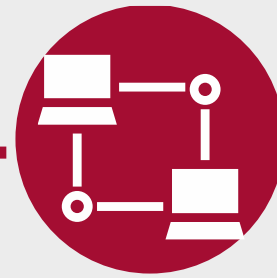

OUR COMPREHENSIVE UNINTERRUPTIBLE POWER SUPPLIES SOLUTION

Protects your equipment
from power failures and
other problems.

OUR BACKUP POWER OFFERING COVERS

Computers & home networks

Battery backup and surge protection for computers & desktops, home networking & servers, in addition to other electronics

Networks & servers

Power availability and management for entry-level to high-performance servers, storage and business networking systems

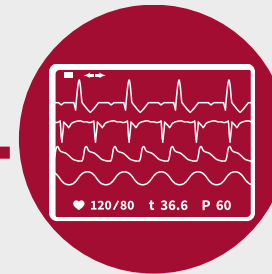

Industrial Heavy machines

Emergency and prime power solutions designed to keep large operations running smoothly

Networks & servers

Power availability and management for entry-level to high-performance servers, storage and business networking systems

Hospital Operational room & medical equipment

Reliable backup power for medical equipment to ensure that care is never interrupted

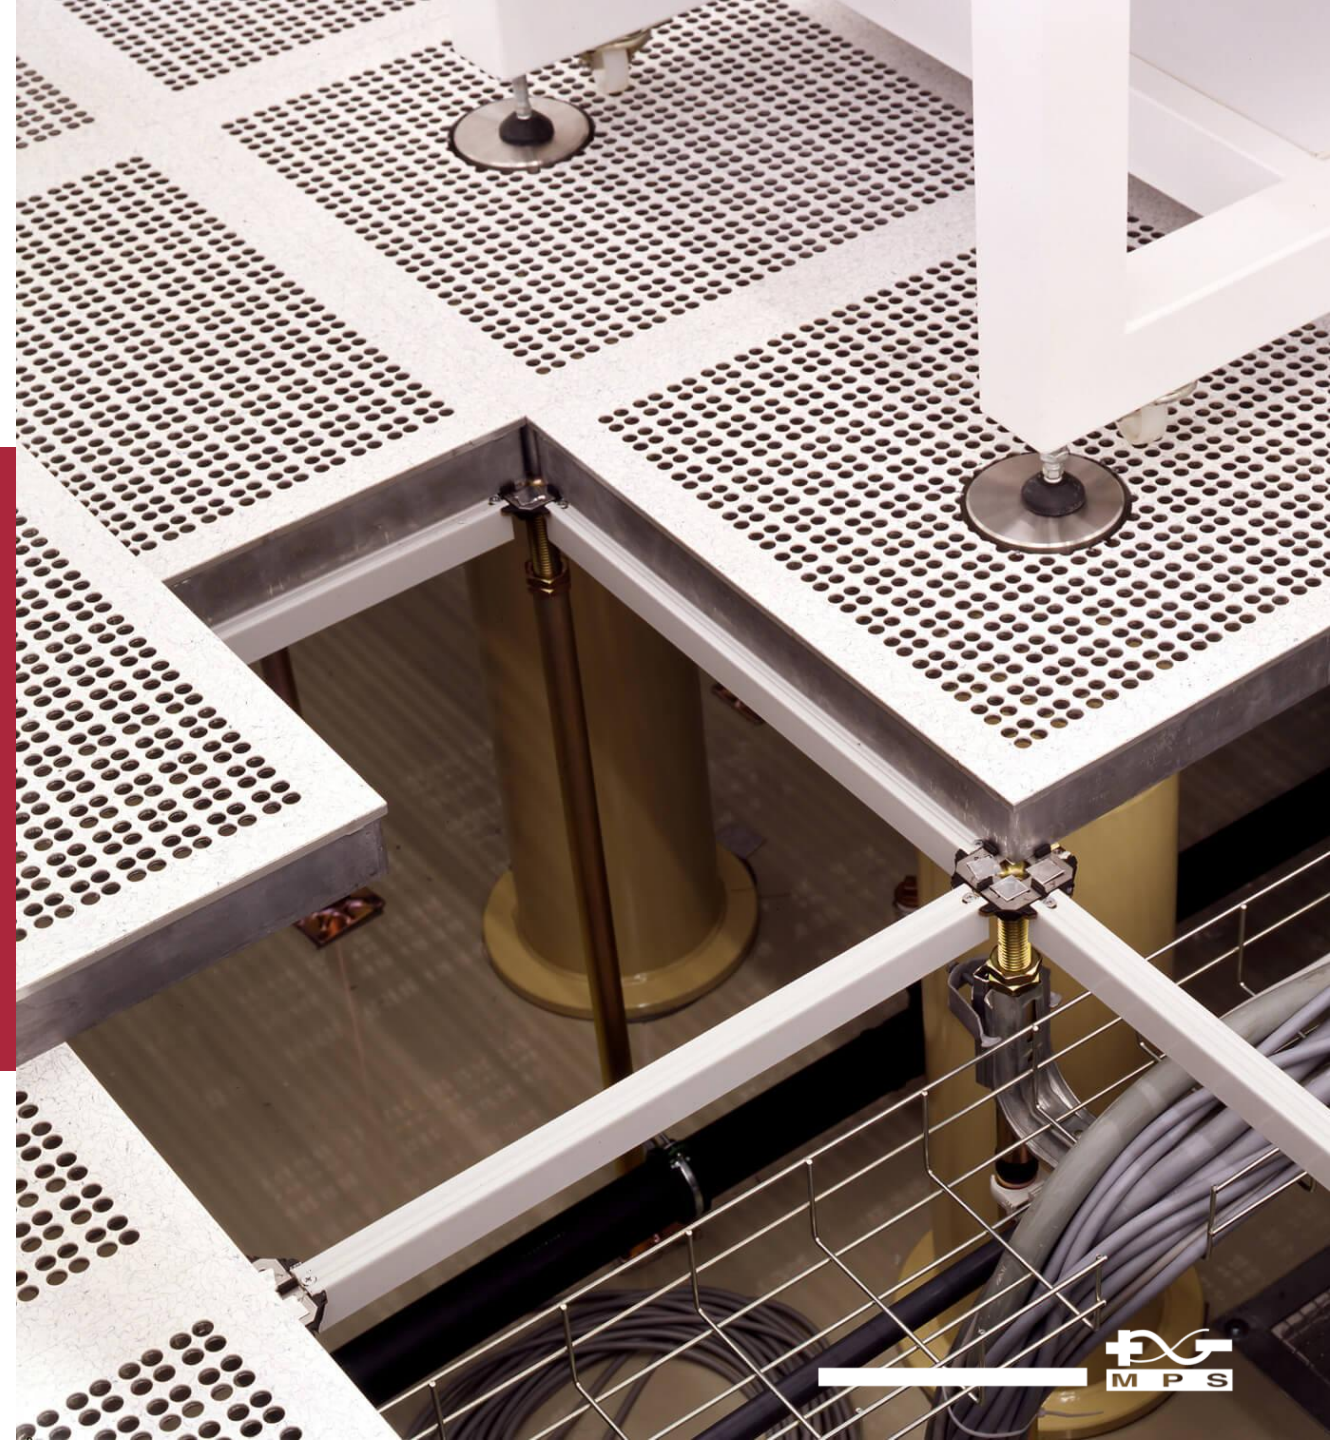

OUR PRECISION AIR CONDITIONING

Precision Air Conditioning
for critical environments.

OUR ACCESS FLOORING SYSTEM

Access Flooring Systems for computer data, power, voice & under-floor air distribution.

THE RIGHT SWITCHGEARS FOR POWER DISTRIBUTION

We provide industries and projects with complete solution in electrical power distribution to control and protect your equipment and electrical installations with the right products

Our solutions include, but not limited to:

- Switchgear for all types of panels boards
- Control gear
- Automation
- Motor control products

STRUCTURED CABLING SOLUTIONS

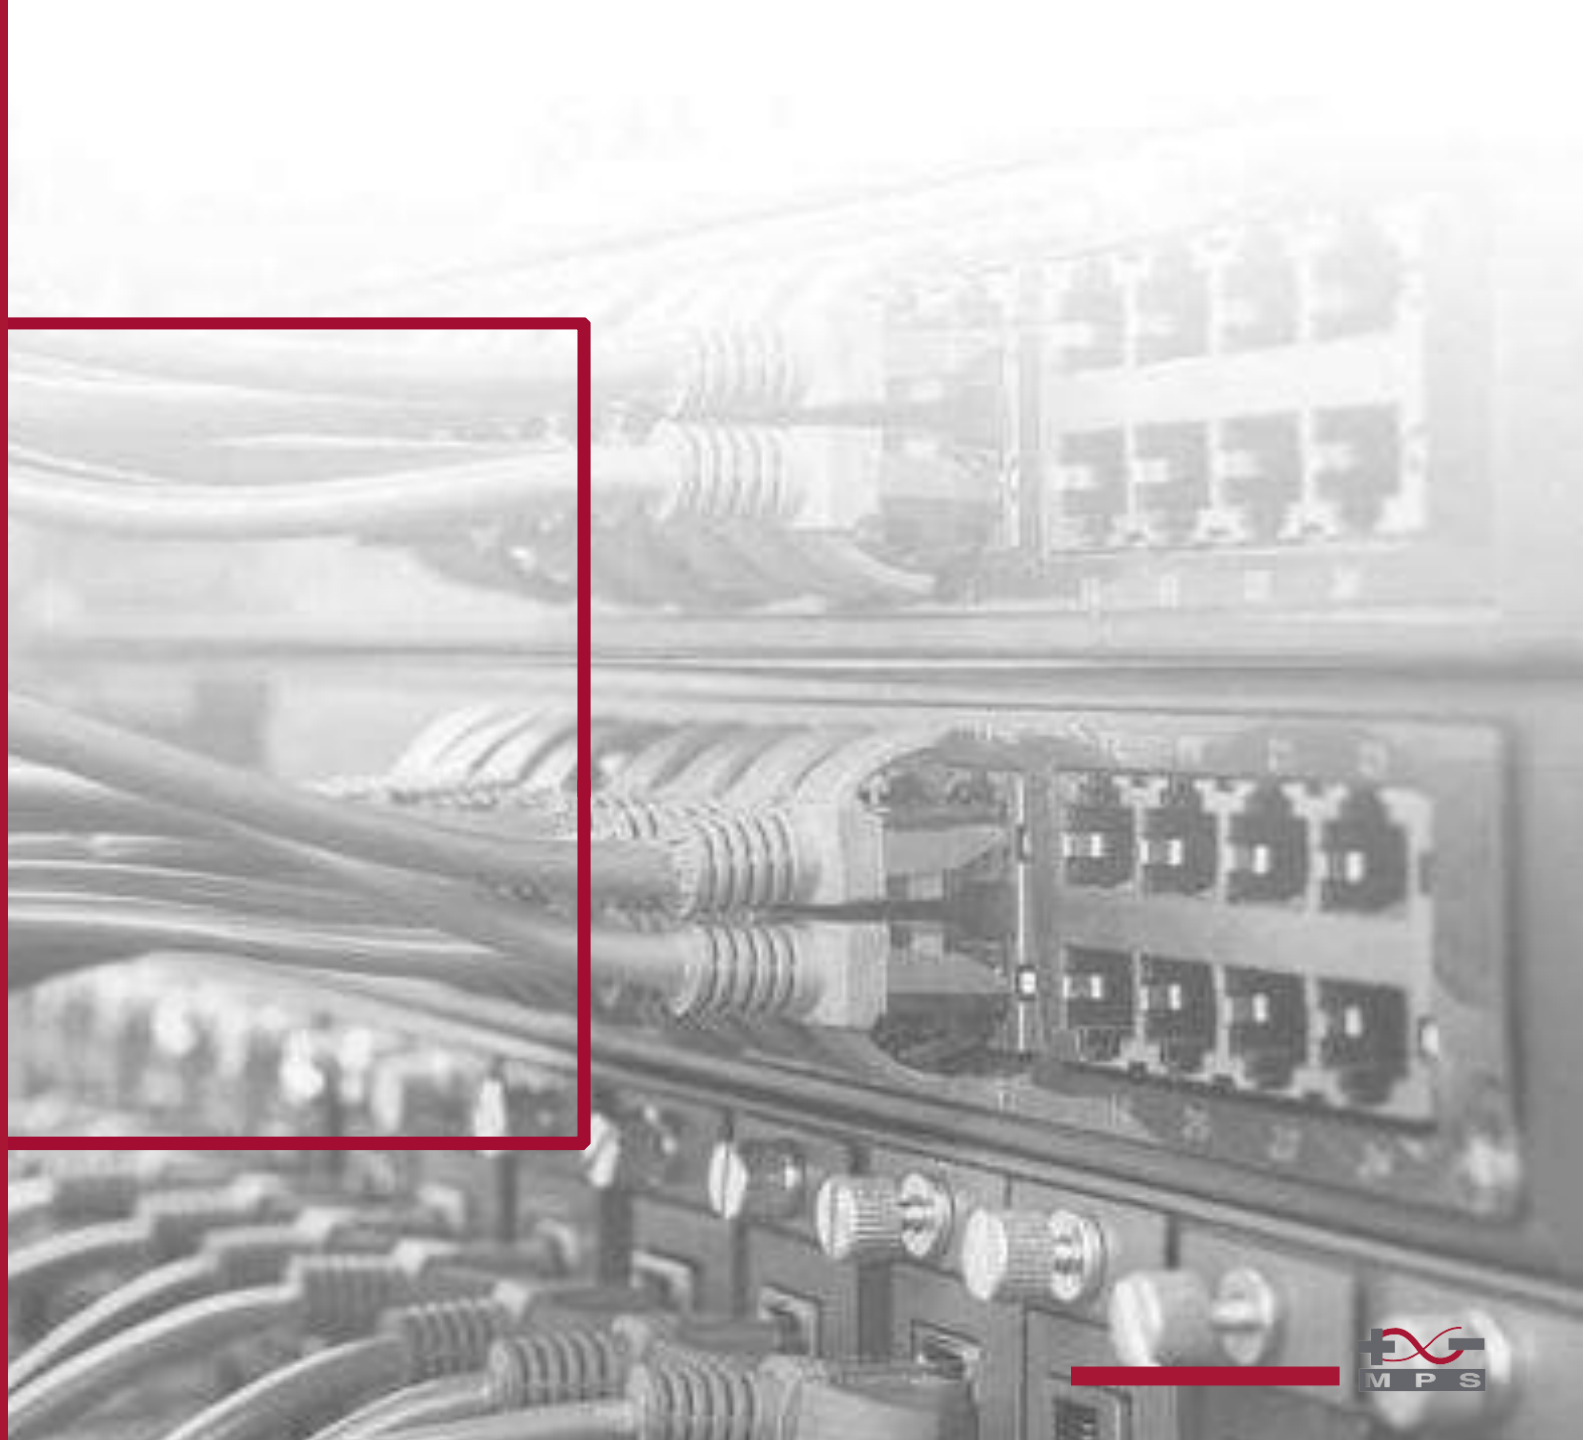

End to end solutions for copper & fiber network cabling

- Passive components & backbone equipment
- Termination testing & labeling
- For Voice & Data, as well as any IP communication

The connectivity solutions we offer delivers proven **structured cabling performance** with the reliability you have come to expect.

In the area of **DATA CENTER**, our cable assemblies and connectivity solutions give you **extra design flexibility** for your equipment architecture.

OUR ENVIRONMENTAL MONITORING SYSTEM SOLUTION (EMS)

EMS prevents hardware damage to server rooms data centers and network closets with critical conditions alerts and remote reboot capabilities.

A FULL RANGE OF DATA CENTER SOLUTIONS

We follow the best practices in data center design to provide the best

- Facility conceptual design
- Space planning
- Construction
- Physical security
- Fire protection
- Operations
- Maintenance
- Procedures

DATA CENTER & DISASTER RECOVERY SITE

We provide reliable data center and DR sites that protect the most critical assets of organizations:

- Data
- Servers
- Storage equipment

To help them maintain and operate properly

WE HELP YOU SOLVE YOUR DATA CENTER CHALLENGES

1

Do more with the **space** you have by freeing up rack space, consolidate patching, and use overhead space

2

Choose from plug-and-play fiber and copper systems designed for fast deployment.

3

Make smart **infrastructure investments** and **cost containment** by using connectivity and cable management designed to create significant, measurable long-term savings

4

Avoid network disruptions that can lead to **financial loss, downtime, and risk**. Rely on intelligent monitoring to diagnose problems faster, prevent unauthorized changes and mistakes with locking fiber and copper connectivity

DATA CENTER

- Civil works
- Lighting
- Earthing & bonding
- Raised floor
- Fire rated doors
- Access control
- CCTV
- Fire fighting & alarm
- Environment monitoring

- Cooling
- Power sources
- Power distribution
- Network cabling (copper & fiber)
- Servers & related (racks, etc...)
- Data Center Infrastructure Management

OUR PARTNER

Darko Construction is MPS's partner in Egypt and was founded in 1985. It is specialized in corporate office space design and construction, implementing global standards in space design security, environment, health, safety, and information technology.

Their portfolio of services focuses on the following:

- New Construction
- Refurbishment and Renovations
- Architectural & Structural Engineering
- Interior design
- Design & Build (Turnkey Projects)
- Electro-Mechanical Engineering
- Project Management

OUR PARTNER

Beit Al Sakr is MPS's partner in Iraq and was founded in 1972. It is specialized in providing complete Power Life Cycle Solutions, Rental Power Solutions, Power Projects, in addition to complete Power Solutions

Their portfolio of services focuses on the following:

- Build Operate, Transfer (BOT)
- Engineering , Equipment Supply (EES)
- Operation and Maintenance (O&M)
- Engineering, Procurement & Construction (EPC)

OUR PARTNER

Their Main Products are:

- Electrical Generator Sets
- Acoustic Enclosures
- Power Plant & Power Vans
- Ground Power Unit
- LV Switch Board & MV Switch Gears
- After Sales Service and Maintenance
- Oil Field Production Equipment
