OUR CORE CAPABILITIES

Industry Solutions

- Banking & Financial Services
- Telco
- Government & Public Sector
- Hospitality
- Higher Education
- Healthcare Solutions
- Retail & e-Commerce

Enterprise Solutions & Services

- Enterprise Resource Planning (ERP)
- Customer Relationship Management (CRM)
- Business Process Automation
- Imaging, Printing & Document Management
- Call Center & Marketing Services
- Logistics & Warehousing Services

IT Infrastructure

- Data Center
- Networking & Telecom
- IT Security & Cybersecurity
- IT Management

Cloud Services

- Cloud Infrastructure & Hosting
- Cloud Security & Compliance
- Cloud-Based Business Applications
- Kubernetes Infrastructure & Orchestration

Site & Power

- UPS & Power Backup
- Renewable Energy Solutions
- Critical Power & Cooling
- Power & Environment Monitoring
- Security & Access Control

INTERNATIONAL PRESENCE

WHO WE ARE

MPS is a provider of mission-critical infrastructure solutions, enabling organizations to run digital operations through robust data centers, connectivity networks, and resilient power systems.

We at MPS, have an accredited tier designer team that supports our customers to design, build, maintain, and guide our customers to obtain an “Uptime” certification (up to Tier4) for data center infrastructures.

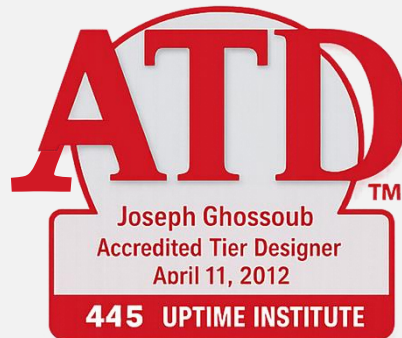

ORGANIZATIONAL STRUCTURE

STRENGTHS

- 40+ years of proven infrastructure expertise
- 2,500+ clients across multiple industries
- Strong regional presence supporting clients in Lebanon, Egypt, Iraq and Africa
- Highly qualified engineering and technical teams
- Extensive experience in mission-critical environments
- Long-standing customer relationships built on trust and service excellence

WE ARE CERTIFIED

3 Accredited **ATD** with up to Tier IV Uptime
certified for data center solutions.

MISSION

- We deliver **continuous power and optimal environmental control** for mission-critical systems and IT infrastructure.
- Be the **trusted partner** delivering **end-to-end power, cooling, networking infrastructure, telephony, physical security and data center solutions**, from design to operations.

OUR SOLUTIONS

MPS delivers integrated infrastructure solutions designed to ensure reliable power, connectivity and IT infrastructure for business operations.

Our core Infrastructure Solutions include:

- Critical Power Infrastructure
- Precision Cooling Systems
- LAN & Wireless LAN
- Voice IP & Telephony Solutions
- Physical Security & CCTV Systems
- Structured Cabling Infrastructure
- Data Center Infrastructure Solutions
- Switchgears

CRITICAL POWER INFRASTRUCTURE

Reliable power infrastructure is essential for protecting equipment and ensuring uninterrupted operations.

Core Capabilities

- UPS systems for backup power protection
- Electrical power distribution solutions
- Industrial and enterprise battery systems
- Energy monitoring and power management
- Switchgear solutions for electrical protection and control

Ensuring continuous power availability for mission-critical environments.

PRECISION COOLING SYSTEMS

Efficient cooling systems maintain optimal environmental conditions for IT infrastructure and equipment.

Core Capabilities

- Precision air conditioning systems
- Environmental monitoring systems
- Temperature and humidity management
- Energy-efficient cooling infrastructure

Designed to support data centers, server rooms and high-density IT environments.

LAN & WIRELESS LAN

Enterprise LAN & Wireless solutions deliver secure, high-performance connectivity, enabling seamless wired and wireless communication across all business environments.

Core Capabilities

- Converged wired & wireless infrastructure
- High-speed, reliable network performance
- Secure access across all devices and users
- Scalable, future-ready architecture
- Centralized network management

VOICE IP & TELEPHONY

Modern IP telephony unifies voice, data, and collaboration on a secure network—delivering reliable, cost-efficient, and flexible communication for digital and hybrid environments.

Core Capabilities

- Converged voice & data infrastructure
- Reduced communication costs
- Seamless mobility & remote access
- Scalable, future-ready architecture
- Foundation for unified communications

PHYSICAL SECURITY & CCTV

MPS delivers advanced physical security solutions, built on artificial intelligence that protect facilities, infrastructure, and people.

Core Capabilities

- CCTV surveillance systems
- Video management platforms
- Access control systems
- Integrated security monitoring
- Providing real-time visibility and enhanced protection

STRUCTURED CABLING INFRASTRUCTURE

Reliable connectivity starts with a strong and scalable cabling infrastructure

Core Capabilities

- Copper network cabling systems
- Fiber optic infrastructure
- Passive connectivity components
- Cable management and certification
- Fluke test reports

SWITCHGEAR SOLUTIONS

MPS delivers advanced switchgear solutions designed to control, protect and distribute electrical power across critical infrastructure environments.

Core Capabilities

- Power distribution systems
- Switchgear for panel boards
- Control and protection equipment
- Motor control and automation systems
- Electrical installation protection solutions

DATA CENTER INFRASTRUCTURE

MPS delivers end-to-end data center infrastructure environments combining multiple technologies.

Core Capabilities

- Power infrastructure systems
- Cooling solutions
- Structured cabling environments
- Security systems
- Environmental monitoring platforms

Ensuring high availability and operational continuity.

DATA CENTER LIFECYCLE SERVICES

MPS supports the entire lifecycle of data center environments.

Design

- Facility conceptual design
- Capacity planning
- Architecture development

Implementation

- Infrastructure deployment
- Civil works and electrical systems

Certification

- “Uptime” certification up to international standards

Deployment

- Equipment installation
- Testing and commissioning

Operations

- Monitoring and maintenance
- Infrastructure optimization

DISASTER RECOVERY & BUSINESS CONTINUITY

MPS helps organizations protect critical systems through resilient infrastructure solutions.

Core Capabilities

- Disaster recovery site deployment
- High-availability infrastructure environments
- Backup and redundancy solutions
- Business continuity support

Ensuring organizations remain operational even during unexpected disruptions.

OUR BACKUP POWER OFFERING COVERS

Computer, home networks and physical security

Battery backup and surge protection for computers & desktops, home networking & servers, in addition to other electronics

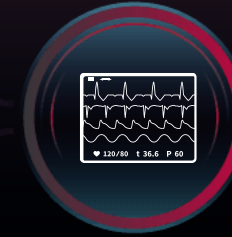

Networking & server solutions

Power availability and management for entry-level to high-performance servers, storage and business networking systems

Industrial Heavy machines

Emergency and prime power solutions designed to keep large operations running smoothly

Hospital Operational room & medical equipment

Reliable backup power for medical equipment to ensure that care is never interrupted

OUR ACCESS FLOORING SYSTEM

Access Flooring Systems for computer data, power, voice & under-floor air distribution.

INDUSTRIES WE SERVE

Healthcare

Hospitals and medical facilities

Industrial & Manufacturing

Operational continuity for
production environments

Telecommunications

Telecom operators and
infrastructure providers

Hospitality

Hotels and restaurants

Banking & Finance

Secure financial environments

Commercial

Retail spaces and malls

Enterprise

Corporate IT environments

SMB

(Small and Medium-sized
Businesses)

Government & Public Sector

Secure national infrastructure

Residential

OUR TECHNOLOGY PARTNERS

- MPS collaborates with leading global technology partners to deliver reliable infrastructure solutions.
- Our partnerships ensure trusted, industry-proven technologies.
