- Cloud-Based Business Applications
- Kubernetes Infrastructure & Orchestration

Site & Power

- UPS & Power Backup
- Renewable Energy Solutions
- Critical Power & Cooling
- Power & Environment Monitoring
- Security & Access Control

INTERNATIONAL PRESENCE

OUR MISSION

To shape the future of enterprise technology through integrated, future-ready solutions that drive automation, efficiency, agility, and innovation.

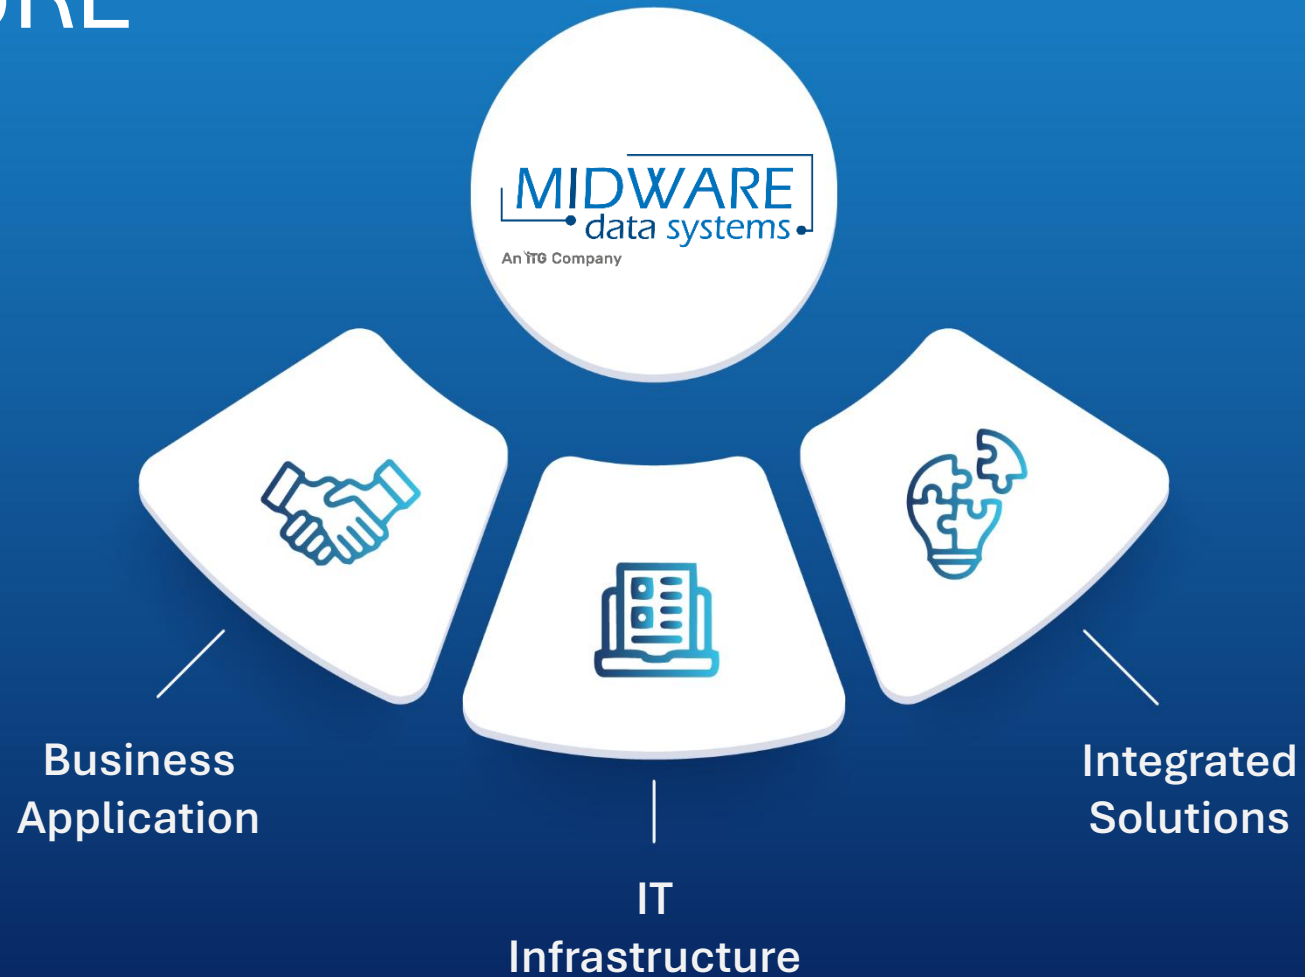

From end-user peripherals to advanced business applications, we design and deliver complete IT environments that combine infrastructure, business applications, and professional services to help organizations navigate complexity and compete with confidence. Through deep expertise and continuous innovation, we enable our clients to grow and lead.

OUR EXPERTISE

Middleware Data Systems delivers future-ready IT ecosystems that enhance operational efficiency, strengthen security, and accelerate digital transformation.

We combine infrastructure, enterprise applications, cybersecurity, and managed services into fully integrated, scalable solutions, designed, implemented, and operated end-to-end across on-premises and cloud environments.

MIDWARE DIVISIONS STRUCTURE

BUSINESS APPLICATIONS SOLUTIONS

HEALTHCARE SOLUTIONS

Midware and Dedalus offer a new generation of a complete Clinical Information System. Based on Open standards (FHIR), it delivers a true integration of services, and enables the continuum of care

- Admission and real-time billing engine adapted to the Lebanese complex requirements
- Reservation and scheduling
- Medical and nursing files
- CPOE
- Complete laboratory management: pathology, biology & genetics
- Complete imaging diagnosis: PACS and imaging management
- Pharmacy management
- Surgery and anesthesia management
- Connected Care: patient engagement tools
- Business intelligence tools

The local presence of subject matter experts brings International yet adapted to local needs solutions, in addition to cost-effective implementation & support

ENTREPRISE RESOURCE PLANNING SOLUTIONS

ERP integrates and manages core business processes such as finance, operations, supply chain, and human resources in one centralized platform to improve efficiency and decision-making.

Business Benefits

- Deliver real-time insights for better decision-making
- Automate operations to improve efficiency
- Drive growth, reduce costs, and enable global scalability
- Modernize your supply chain to enhance visibility, improve planning, streamline procurement, and optimize fulfillment

*all on cloud & on-premises

CUSTOMER RELATIONSHIP MANAGEMENT SOLUTIONS

CRM helps businesses manage customer interactions, track sales activities, organize contact information, and improve relationships to drive growth and customer satisfaction.

Business Benefits

- Improved customer relationship management
- Increased sales & revenue growth
- Better customer data insights
- Enhanced team productivity efficiency

HR/PAYROLL SOLUTIONS

Fulfil your payroll country profile rules and regulations while fully managing your talent in a comprehensive HRIS solution.

Solutions Portfolio

- Menaltech Human Resources Information Management System
- Menaltech Payroll
- Microsoft Dynamics 365 HR solution

*all on cloud & on-premises

CUSTOMER RELATIONSHIP MANAGEMENT SOLUTIONS

CRM helps businesses manage customer interactions, track sales activities, organize contact information, and improve relationships to drive growth and customer satisfaction.

Business Benefits

- Improved customer relationship management
- Increased sales & revenue growth
- Better customer data insights
- Enhanced team productivity efficiency

*all on cloud & on-premises

E-FILE & DMS

Features

SINGLE CAPTURE

- Scan physical documents with any scanner type
- Import electronic documents (MS Office, PDF, Autocad)
- Manual and zone OCR indexing for efficient metadata entry
- Save and retain previous index values for faster processing

VIEW & SECURITY

- Integrated viewer for image and non-image files
- Annotate, track versions, and view document history
- Set detailed access and action rights, audit trails, and encryption
- Scheduled backups and security on annotations

SEARCH

- Perform simple or custom index searches
- Use virtual folders for organized browsing
- Access a simple search interface for document retrieval

OTHERS

- Email documents, control versions, and link related files
- Annotate images, add multilingual support, and export search results
- Store files on multiple storage devices

The background is a dark blue gradient with a pattern of glowing, light blue dots and streaks that create a sense of depth and movement, resembling a digital or data environment. The text is centered in the middle of the frame.

IT INFRASTRUCTURE SOLUTIONS

PROVEN LEADERSHIP

A resilient and future-ready IT infrastructure is no longer optional; it is fundamental to sustainable growth and operational continuity. At Midware, we design and deliver high-performance infrastructure environments built to compete in complex, fast-evolving markets.

World-Class Partnerships:

Strategic alliances with leading global technology providers

Comprehensive Technology Portfolio:

End-to-end solutions across infrastructure, cloud, security, and enterprise systems

Certified Technical Expertise:

Highly trained engineers with proven implementation and support experience

OUR TEAM

Certified. Experienced. Trusted.

Our specialists are trained by leading global technology providers and bring extensive hands-on expertise across enterprise applications, infrastructure, and cybersecurity.

We deliver solutions with confidence, precision, and measurable impact.

DATA CENTRE SOLUTIONS

Shift away from traditional server-based approach to a new compute approach that accelerates IT service delivery, lowers costs and fuels business growth.

Solution Scope

- Data centre virtualization technologies: infrastructure, desktop, storage & network virtualization
- Secure & compliant enterprise cloud environments
- End to end hardware & software solutions
- Server clustering, load balancing & disaster recovery plans on and off premise

NETWORKING & COMMUNICATIONS SOLUTIONS

Control and optimize network flows dynamically to your specific needs.

Solution Scope

- IP address management
- Load balancing
- Location based analytics
- Video conferencing
- Voice & IP telephony
- Physical security
- Unified communication & collaboration
- Contact centre
- Digital signage
- AV solutions

IT MANAGEMENT SOLUTIONS

Integration of software solutions that speed up service delivery while making the experience more satisfying for all users.

Solution Scope

- Hybrid cloud management
- IT operations
- Cloud & data centre automation
- Quality & performance testing

SECURITY SOLUTIONS

Delivering unparalleled security services to control network infrastructure.

Solution Scope

- Security assessment to help minimize any business risks
- Security audit
- Design & implementation of comprehensive antivirus solutions
- Implementation of intrusion detection solutions
- Vulnerability management
- SIEM
- Endpoint protection
- Database security & compliance
- Cyber security
- Managed security services

SOFTWARE LICENSING SOLUTIONS

It helps prevail upfront investments, recurrent maintenance, operating costs, and time.

Solution Scope

- Cloud subscriptions
- Flexible licensing programs
- Enterprise licensing agreements
- Cloud software metering
- Software asset management

The background is a deep blue gradient with two prominent, glowing trails of small white and light blue particles. One trail starts from the top center and curves downwards and to the right. The other starts from the bottom center and curves upwards and to the right. The text 'INTEGRATED SOLUTIONS' is centered in the middle of the image in a bold, white, sans-serif font.

INTEGRATED SOLUTIONS

IMAGING & PRINTING (BUSINESS)

- Business multifunction devices (Colour and B&W)
- Professional archiving Scanners
- Production printers (Colour and B&W)
- Wide format printers
- After sales services (Maintenance, Consumables, Spare Parts)

VC, AV, DISPLAY & PHYSICAL SECURITY SOLUTIONS

END USER COMPUTING SOLUTIONS

Streamlining and automating business processes and workflows that offer savings and greater competitive advantage that can be achieved with a fully optimized computing solution that is more efficient and faster to adapt.

MANAGED SERVICES

SUPPORT SERVICES

Certified by leading suppliers across hardware and software platforms, our support team ensures reliable performance and minimal downtime

1 **Trained and experienced support staff**

2 **Response time**

Average response time:
Under 4 working hours
