

Introducing nü.bank® NeoPay

*Empowering Financial Institutions
in the MENA Region*

Overcome Fintech Challenges

In today's rapidly evolving financial landscape, navigating compliance and operational efficiency is more critical than ever. Designed exclusively for the MENA region, nü.bank® NeoPay is your comprehensive enterprise payments hub—streamlining processes, reducing risks, and ensuring regulatory adherence.

Key Benefits

•Seamless Integration:

Easily connects with major clearing houses, EFT providers, and core banking systems.

•Global Standards:

Fully supports SWIFT CBPR+ and ISO20022 standards for smooth, compliant payment processes.

Exclusive Features

•FINScreen – Advanced Compliance Screening

Leverage state-of-the-art AI to perform multi-language sanctions screening for EFT operations, ensuring you remain compliant with the latest regulatory requirements.

•FINControl – Proactive Payment Control

Benefit from real-time fraud prevention with dynamic anomaly detection and advanced reconciliation features designed to mitigate risks as they happen.

Robust Security & Connectivity

•Cutting-Edge Security:

Enjoy peace of mind with GDPR compliance, multi-factor authentication, LDAP integration, and comprehensive security logs.

•Enhanced Connectivity:

Operate seamlessly with support for multi-institution and multi-lingual environments, along with connectivity via FTP, APIs, and messaging systems.

Flexible Licensing & Integration

Our offering includes a perpetual license with no user limitations, enabling flexible integration with your core platforms and dynamic workflow management to suit your unique business needs.

Transform your operations with a platform designed to boost efficiency, reduce fraud risk, and ensure regulatory compliance. For full details on product capabilities and deployment options, please refer to the attached brochure.

Elevate your financial operations with nü.bank® NeoPay
your gateway to a smarter, more secure future in payments.
