

MDSL ITSP TOKENIZATION

MDSL's Issuer Token Service Provider (ITSP) solution enables banks and fintechs to deliver **secure, seamless digital payments** with minimal development effort.

Our Token Management Platform (TMP) integrates directly with Mastercard MDES, Visa VTS, and domestic schemes, ensuring **fast time-to-market and compliance with global standards**.

**Simplifying
Secure Digital Payments
for Banks & FinTechs**

KEY FEATURES

- **Pre-Digitization**
Secure card verification to enable tokenization for Apple Pay, Google Pay, and other wallets
- **Token Lifecycle Management**
Activate, suspend, delete, or update tokens via APIs or admin portal
- **Push Provisioning**
One-click card provisioning directly from your mobile app
- **Fraud Prevention**
Device scoring, geolocation, velocity checks, token limits, and decision paths
- **User Authentication**
Instant approval, SMS/Email OTP, call center activation, or decline for risky requests
- **Reporting & Analytics**
Comprehensive dashboards with token history, device/user data, and fraud insights
- **Card Lifecycle Sync**
Automatic updates for renewed, replaced, or terminated cards
- **Enterprise Security**
Role-based access, IP whitelisting, VPN support, and secure API connections

BENEFITS FOR ISSUERS

- **Seamless Integration**
One interface for MDES, VTS, and local schemes
- **Operational Efficiency**
Automated lifecycle management and reporting tools
- **Enhanced Customer Experience**
Smooth digital wallet onboarding with push provisioning
- **Built-in Risk Management**
Fraud prevention and decisioning embedded in the platform
- **Flexibility**
Configurable modules tailored for banks & fintechs
- **Customer Service Tools**
Easy management via admin portal

WHY PARTNER WITH MDSL?

- **Proven Expertise**
Trusted track record in secure, compliant mobile wallet deployments
- **White-Label Solutions**
Fully customizable wallet apps to reflect your brand identity
- **Future-Ready ITSP Module**
Gateway for both domestic and international tokenization requirements
- **Advanced Provisioning**
Ready for Apple Pay, Google Pay, and upcoming digital wallet ecosystems

MDSL ITSP Tokenization delivers a **future-proof, scalable, and secure** foundation for digital payments, empowering issuers to **simplify operations, protect customers, and accelerate digital adoption.**
